Welcome...

The T@B teardrop travel trailer was birthed a decade ago, inspired by the classic teardrop camper trailer of the 1940's. This unique camper takes the concept of teardrop trailers to the next level by adding bright colors, dynamic lines, standing room and many creature comforts not available in typical teardrops.

The T@B is designed to be lightweight, easy to tow and even easier to set up and use. By staying significantly below the 2000 lb threshold, the T@B is uniquely positioned in a class all by itself. As such, most family cars, SUV's and lightweight trucks exert little to no effort to tow one.

So pick out your floorplan, your colors, your options and personalize the T@B just for you!

Superior Craftsmanship EVERY DAY

Our products are built using fine, high grade materials and we pay attention to detail on every model we build. One look at the T@B and you'll understand it's not just the retro design and ultra-light weight nature that makes it popular—it's the quality.

Standard Features

High Gloss Exterior with Alloys

Spare Tire Mount

Sturdy Doorstep

Tongue Box

Sink & Stove

Easy-Up Table

In all things of nature there is something of the marvelous.

U

U-Floorplan

The traditional floor plan got its name from the U-Shaped Sofa Bed/Dinette which converts into a 70"x73" sleeping area. The rear wall features 3 overhead cabinets as well as European Styled Lighting. The kitchen area features a sink, 2-burner stove, overhead cabinetry and a tall shirt closet. The kitchen area features a sink, 2-burner stove, overhead cabinetry and a tall shirt closet.

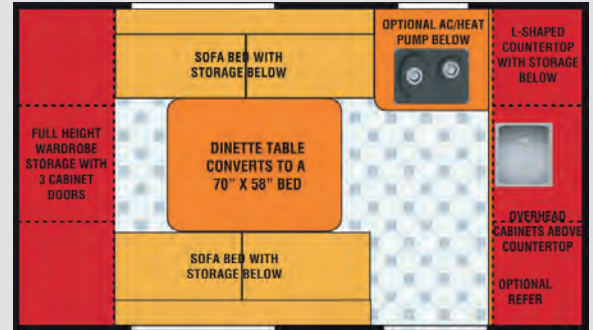

Kitchen and Entrance

Seating Area

L-Floorplan

If you need storage space, this is your floor plan. The L shaped countertop comes complete with sink & 2-burner stove and features ample cabinetry — both overhead and underneath. Ceiling to floor cabinetry, located on the rear wall, provides loads of deep storage.

Kitchen and Entrance

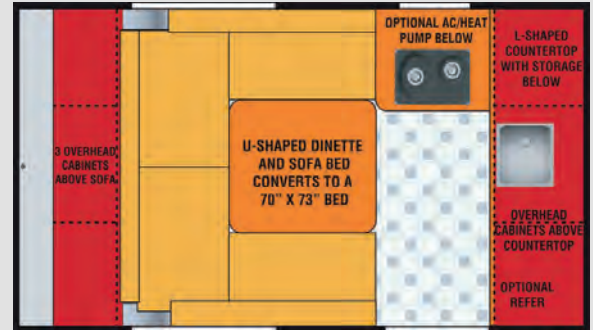

Seating Area

Q

Q-Floorplan

What do you get when 2 T@Bs fall in love? A true hybrid of the L & U floor plans, the Q offers the same front kitchen area as the L floor plan while providing the sofa sleeper/dinette and rear cabinetry as the U floor plan.

Kitchen and Entrance

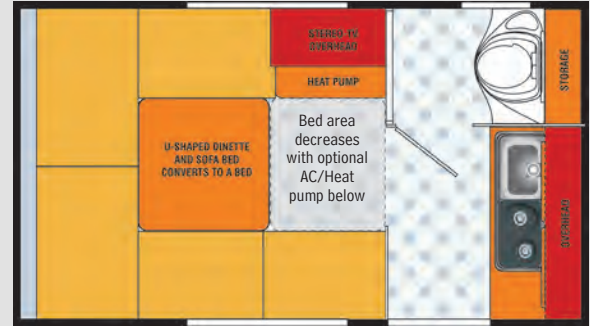

Seating Area

S

S-Floorplan

Love the T@B but can't pull the trigger without a restroom? Here's your answer. The S Model offers the traditional U floor plan with respect to both kitchen and sleeping areas, but swaps out the cabinet and floor mounted AC for a wetbath, giving you the ability to shower as well. Your 73"x70" sleeping area will not be compromised whatsoever should you wish to add the ceiling mounted AC unit.

Kitchen and Entrance Seating Area

shown with optional pole table base

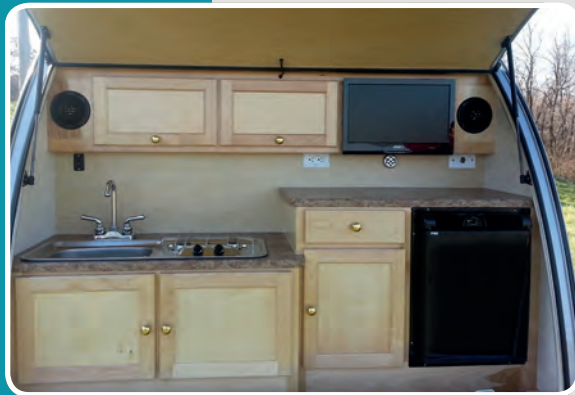

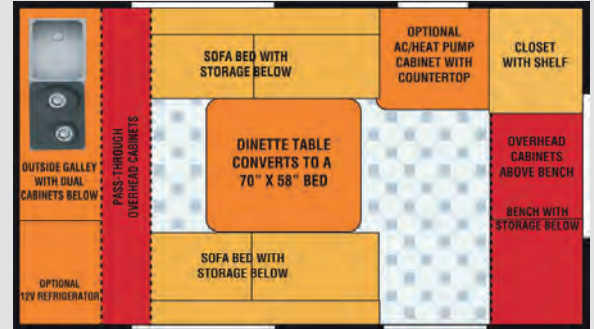

Ceiling Mounted AC for models with wet bath

*All packages of the S-Model include both gray and hot water tank.

C

Clamshell Floorplan

Maximize your cabin area while enjoying nature as you cook outdoors! The Clamshell model originates from the traditional teardrop trailers where kitchens are set in the rear of the camper. A bench, with cushion & storage, sets in the front in lieu of an internal kitchen area. And just like the S-Floorplan, the CS also offers the option to add a wetbath.

shown with optional front window

Front Bench and Entrance

Seating Area

shown with optional pole table base

Due to the styling and contour of the CS, the colored body trim is only available around the windows, wheel wells and the two front grab handles. The 3-way fridge is not available in the CS as it cannot attain proper adequate ventilation for LP exhaust.

Options & Packages

Quickst@rt Package Features *(S Model packages vary)*

9" Flip-down TV/DVD/AM/FM

Furnace

12v-110 Refrigerator

Air Conditioner

Your T@B. YOUR WAY.

Check out our accessories and optional features to make your T@B unique and beautiful; just the way you like it.

Tent

Increase your versatility by adding living space! This is an ideal extension for guests, children or pets... alternatively, have it simply serve as a screened in porch to your T@B.

Accessories

Cover

Sap, acid rain and a litany of elements of nature can be brutal to your camper—keep your T@B protected with this breathable, UV resistant, durable all-weather cover.

Awning

Keep cool in the shade with this awning! Like the tent, it interfaces with the keder rail on your T@B.

Teardrop Lock

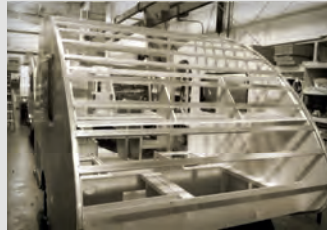

Protect your investment and make everyone aware that you love (and lock down) your T@B.

It is pleasant to have
been to a place the
WAY A RIVER WENT.

HENRY DAVID THOREAU

Quality Construction

In building the T@B, our charge is to construct it with the utmost care, employing only the highest grade materials. From the all-aluminum framing to the beautiful and pure birch interiors to each individual component, we take great pride in the construction process and strive for perfection. We want you to enjoy your trailer in every way possible: functionally, practically and aesthetically.

We strictly adhere to NFPA/1192 and CSA/Z240 Certification requirements and implement multiple quality control checkpoints during and after the construction process. When the trailer is completed, every component and system is re-tested to ensure that it is issue-free and ready for you to take home!

Dealer Body

Our dealer body is the heart and soul of our organization. Each one is independently owned and operated—free from any corporate requirements. Purchasing locally has a litany of benefits. From the investigation/education process to purchasing to servicing your trailer to possibly trading it in on a new one, your dealer will forge a personal relationship with you that is both meaningful and long lasting. Other superlatives a local dealer can offer include proximity/ease of access, custom information on ordering and maintenance for the state in which you live and general tips to operate your T@B in the most efficient and effective manner.
